

Type S22 Spring Loaded Pressure Regulators

The **S22** are a new **line of pressure regulator – spring loaded** – suitable for use in canalized nets of low and medium pressure with non-corrosive gas filtered at first.

The feature peculiar to **S22 regulators** is the trivalent operating, i.e. in a single body is united the following operations: main regulator, monitor, shut-off valve. Special use of a single body allows to reduce overall dimensions of regulation units and solve problems of replacement or conversion of existing units out of standard.

SPECIFICATIONS

Body Material: Aluminium / Iron / Painted

Inlet Pressure: 6 to 20

Outlet Pressure: 10 – 4000 mbar

Nominal Capacity: request more information

Working temperature: -20(-30) ÷ +60

Inlet Connections: DN40/DN50

Outlet Connections: DN40/DN50

MADE IN ITALY
