

Type S25 Pilot Operating Pressure Regulators

S25 are a new **line of pressure regulator** – pilot-controlled – suitable for use in high pressure gas network with noncorrosive gas filtered at first.

The feature peculiar to **S25 regulators** is the trivalent operating, i.e. in a single body is united the following operations: main regulator, monitor, shut-off valve.

Special use of a single body allows to reduce overall dimensions of regulation units and solve problems of replacement or conversion of existing units out of standard.

SPECIFICATIONS

Body Material: Iron / Painted

Inlet Pressure: 100

Outlet Pressure: 0.5 – 40 mbar

Nominal Capacity: request more information

Working temperature: -20 ÷ +60

Inlet Connections: DN25 - DN40 - DN50 - DN 80
Outlet Connections: DN25 - DN40 - DN50 - DN 80
