

## Type S24 Pilot Operating Pressure Regulators

**S24** are a new **line of pressure regulator** – pilot-controlled – suitable for use in canalized nets of low and medium pressure with non-corrosive gas filtered at first.

The feature peculiar of **S24 regulators** is the trivalent operating, i.e. in a single body is united the following operations: main regulator, monitor, shut-off valve.

Special use of a single body allows to reduce overall dimensions of regulation units and solve problems of replacement or conversion of existing units out of standard.

### SPECIFICATIONS

**Body Material:** Iron / Painted

**Inlet Pressure:** 20

**Outlet Pressure:** 10 – 12000 mbar

**Nominal Capacity:** request more information

**Working temperature:** -20 ÷ +60

**Inlet Connections:** DN25 – DN40 – DN50 – DN 80

**Outlet Connections:** DN25 – DN40 – DN50 – DN 80
